

DIPAYAN DUTTA

Full-Stack & Python Developer

ABOUT ME

A creative and detail-oriented Full-Stack Developer with expertise in designing scalable, high-performance web applications. Skilled in Django, Node.js, and React. I specialize in crafting seamless user experiences and robust backend architectures. Passionate about AI, gaming technology, and system optimization, I thrive on solving complex problems efficiently.

SKILLS

- ◆ Full-Stack Development – Proficient in building end-to-end applications with modern frameworks.
- ◆ AI & Emerging Tech – Experimenting with AI models to understand their real-world applications.
- ◆ Hardware & System Optimization – Strong understanding of computer architecture and network systems.
- ◆ Gaming & Interactive Tech – Exploring the intersection of gaming and software development.

EDUCATION

- 🎓 JIS College of Engineering – Bachelor of Technology Computer Science (September 2024 – July 2027)
